Q Series Stainless Steel 10mm Indicators

Apem introduces the newest addition to its rapidly expanding LED indicator line with the new Q10 Series. With its rounded stainless steel bezel, the Q10 is certain to become an industry favorite

The Q10 Series is a low profile LED indicator that is front panel sealed up to IP67 & fully potted from behind with 24AWG 200mm wires. Robust & durable, the Q10 is perfect in applications such as Marine, Transportation & Automation where the indicator may be exposed to UV, shock, vibrations & temperature cycling.

Available in standard, hyper bright, super bright, bi-colour & tri-colour LED's, the Q10 Series offer a new instinctive high-end look to a vastly popular product line.
