

RAC05-K

The RAC05-K series comprises ultra-compact AC/DC power supply modules in lightweight fully encapsulated plastic casing for PCB mount. Beside the safety approvals for industrial and IT solutions, they are also certified to UL60950-1 and UL62368-1.

Unique Selling Proposition:	<ul style="list-style-type: none"> Low cost 5W in compact 1" x 1" package (high power density) Internal EMC class B filter UL/IEC/EN60950-1 & UL/IEC/EN62368-1 Electrical protection Operating temperature range: -25°C to +50°C @ full load
Target customer:	<ul style="list-style-type: none"> IoT applications Stand-by applications Monitoring systems Instruments and meters Controllers and sensors Industrial controls Security systems Space constraint applications
Main Features:	<ul style="list-style-type: none"> 5W in 1" x 1" package Universal input range 85 – 264VAC Output voltages 3.3, 5, 12, 15 and 24VDC Operating temperature range: -25°C to +50°C @ full load SCP, OVP, OCP, OVP Internal EMC class B filter UL/IEC/EN60950-1 & UL/IEC/EN62368-1 certification 75mW in standby high efficiency also by 10% load
