

RFM

The RFM DC/DC converter is typically used in cost sensitive general purpose power isolation and voltage matching applications. Despite its low cost, it is a fully specified converter with 1kVDC isolation, industrial operating temperature range of -40°C to +85°C without derating and UL/EN certifications.

Unique Selling Proposition:	<ul style="list-style-type: none"> Low cost 1W DC/DC converter Industry standard pinout Efficiency up to 79% Wide operating temperature range -40°C to +85°C
Target customer:	<ul style="list-style-type: none"> Embedded controls Isolated power for sensors Price-sensitive applications
Main Features:	<ul style="list-style-type: none"> 1W single output 1kVDC/1sec isolation -40°C to +85°C operating temperature range UL60950-1 certified
