MEC changes their website

The new website has been created in order to make it easier to find information. The products have been divided into 6 groups:

- Single pole pushbutton switches
- Two pole pushbutton switches
- Caps & Accessories
- Illumination
- Panel sealed and under foil solutions
- Custom solutions

The above points should help the customer to find the product they looking for much easier.

The different product groups are shown with complementary products in order to navigate through the variety and modularity of the MEC product range.

Datasheets and additional information can be found on www.mec.dk
