

## RACD150-A Series LED Driver

The new 150W LED drivers are designed for high voltage LED loads of up to 210V and can be dimmed with PWM or 1-10V inputs. Due to their wide input voltage range, these LED drivers are suitable for worldwide use. They are IP67 rated and can be used for both indoor and outdoor applications. The warranty is 5 years.

**Unique selling propositions:** High Output Voltage // Universal Input Voltage Range 90-305VAC // Efficiency up to 92% // IP67 Rated, for Indoor and Outdoor Use // Optional PWM/DC 1-10V Dimming // Short Circuit, Over Voltage and Over Temperature Protected // Compact Size // Compatible With REPOT01-10 // 5 Year Warranty

**Target Customers:** High Bay Lighting // Street Lighting // Area Lighting // Car Parks // Security Lighting

**Main Features:** 150W Single Output // Efficiency up to 92% // PWM/DC 1-10V Dimming // IP67 Rated // 5 Year Warranty
