

MEC has launched a new standard LED – High Intensity Green

MEC are pleased to introduce an addition to the standard Multimec® 5 series illumination options – high intensity green LED.

The intensity is approx. 14 times that of the standard green LED.

We recommend using the new high intensity LED in combination with cap families 1KS/1KBS/1KCS and 1TS/1US/1VS or smaller illuminated caps for daylight illumination visibility

Part Number: 5GxH9xx29

Luminous Intensity		
	Standard	High Intensity
P/N	22	29
Min. mcd	28	500
Typ. mcd	70	1000
