

QH Series Halo LED Indicators

Stylish, modern & innovative QH series is a brand new product that enhances the Q series range. Available in a choice of colours, IP67 sealed as a standard but available unsealed if required, the incorporation of high quality hyper bright LED's make the QH the ideal solution for a wide range of applications.

The QH halo indicator is easily mounted & can be matched with switches with a 16mm, 19mm or 22mm cut out. It is designed as a front panel product & so requires zero depth behind the panel & combined with a choice of bezel & lens colours, all customer requirements have been catered for. Whilst the QH halo indicator utilises the switch to mount it to the panel the addition of a rear 3M adhesive gasket ensures a totally secure fit

Distinctive features

- 12 illuminated LED's
- Red, green & yellow single colour illumination
- Red/green dual colour illumination
- Black & yellow bezels
- Supply voltage 12VDC – 24VDC @ 10mA – 20mA
