RACD04 Series LED Drivers

The constant current LED drivers have been designed for cost sensitive applications. The SELV outputs are suitable for built-in power supply LED luminaries. Their low profile design allows them o be invisibly built into furniture, discretely mounted under shelves or integrated in space restricted applications such as accent lighting, spotlights or reading lights. The power supplies are short circuit and overload protected & come with a full 3 year warranty.

Unique Selling Proposition: 4W AC/DC Class II LED power supply
Fully protected (OLP/SCP/OCP/OTP)
IP65
CE, CB, ENEC, CSA & UL8750 certified

Target Customer: LED spotlights
Reading lights
Accent lighting

Main Features: 350mA to 700mA constant current outputs
3.75kVAC/1 minute isolation
3 year warranty
