

RACD12-LP Series LED Drivers

These low profile constant current LED drivers have been designed for cost sensitive applications. The SELV outputs are suitable for both, independently supplied or built-in power-supply LED luminaires. Their low profile design allows them to be invisibly built into furniture, discreetly mounted under selves or integrated in space restricted applications such as general lighting, accent lighting or troffer lighting systems. The power supplies are short circuit and overload protected and come with a full 3 year warranty.
