

RACV04 Series LED Drivers

These constant voltage LED drivers have been designed for cost sensitive applications. The SELV outputs are suitable for built-in power supply LED luminaires. Their low profile design allows them to be invisibly built into furniture, discretely mounted under shelves or integrated in space restricted applications such as cover lighting, strip lighting or troffer lighting systems. The power supplies are short circuit and overload protected & come with a full 3 year warranty.

Unique Selling Proposition: 4W AC/DC Class II LED power supply
 Constant voltage output
 Fully protected (OLP/SCP/OCP/OTP)
 IP65
 CE, CB, ENEC, CSA & UL8750 certified

Target Customer: LED strip lighting
 Backlighting
 Furniture lighting
 Cove lighting
 Cabinet lighting

Main Features: 12V & 24V constant voltage outputs
 3.75kVAC/1 minute isolation
 3 year warranty
