

RACV06-LP Series LED Drivers

These low profile constant voltage LED drivers have been designed for cost sensitive applications. The SELV outputs are suitable for both, independently supplied or built-in power-supply LED luminaires. Their low profile design allows them to be invisibly built into furniture, discreetly mounted under selves or integrated in space restricted applications such as cover lighting, strip lighting or troffer lighting systems. The power supplies are short circuit and overload protected and come with a full 3 year warranty.

Unique Selling Proposition:	<ul style="list-style-type: none"> 6W AC/DC Class II LED power supply Constant voltage output Low profile (11mm height max.) Fully protected (OLP/SCP/OCP/OTP) Low standby power Integrated input fuse -20°C up to +50°C ambient temperature
Target Customer:	<ul style="list-style-type: none"> LED strip lighting Backlighting Furniture lighting Cove lighting Cabinet lighting
Main Features:	<ul style="list-style-type: none"> 12V & 24V constant voltage outputs 3.75kVAC/1 minute isolation CE, CB, ENEC, CSA & UL8750 certified 3 year warranty
