

RACV12-LP Series LED Drivers

These low profile constant voltage LED drivers have been designed for cost sensitive applications. The SELV outputs are suitable for both, independently supplied or built-in power-supply LED luminaires. Their low profile design allows them to be invisibly built into furniture, discreetly mounted under selves or integrated in space restricted applications such as coving lighting, strip lighting or troffer lighting systems. The power supplies are short circuit and overload protected and come with a full 3 year warranty.

Unique Selling Proposition: 12W AC/DC Class II LED power supply
Constant voltage outputs
Low profile (13mm height max.)
Fully protected (OLP/SCP/OCP/OTP)
Low standby power
Integrated input fuse
-20°C up to +50°C ambient temperature

Target Customer: LED Strip lighting
Backlighting
Cove lighting
Cabinet lighting

Main Features: 12V & 24V constant voltage outputs
3.75kVAC/1 minute isolation
CE, CB, ENEC, CSA & UL8750 certified
3 year warranty
