

## RAC01-GA

The RAC01-GA series are low cost AC/DC power supplies, ideal for PCB mounted compact, board level industrial power supplies. They feature universal AC input voltage range, regulated, & short-circuit-proof isolated DC outputs, low standby power consumption & -25°C to +80°C operation temperature range. The RAC01-GA has a built-in class A / FCC Part 15 EMC filter, are certified to EN60335-1, EN60950 & EN62368 safety standards & come with 3 year warranty.

<b>Unique Selling Proposition:</b>	<p>Low cost AC/DC 1W Wide operating temperature range Class II design with no FG EN55022 class A Fully protected outputs EN60335-1 certified</p>
<b>Target Customer:</b>	<p>House hold Building automation Industrial electrical equipment Factory automation equipment Handheld electronic devices Smart house/building applications</p>
<b>Main Features:</b>	<p>Low cost AC/DC 1W Wide operating temperature range Class II design with no FG EN55022 class A/B EN60335-1 &amp; EN55014-1 EMC certified</p>
