PQ Series Stainless Steel Keypads

APEM launches the PQ series, thus highlighting the features of its formerly-called 8 series. In addition to its attractive design and performances, the PQ series keypad can easily be customized.

This keypad is available in 4, 12 or 16-key configurations, with 2 key sizes, to meet specific customer requirements. LED backlighting can optionally be intensified for better visibility (up to 4 LEDs by key). LED voltage and backlighting color can also be customized. Moreover, the inalterable laser-etched marking is perfectly suitable for intensive use.

Main technical features
- Flush keys
- Rear mounting
- 12.5 mm or 15 mm square keys
- IP65 panel sealing
- Custom markings on request

Applications
With its robust construction, modern design and optimized cost, the PQ series is ideal for access control, vending machines and marine applications.
