

RFB

The RFB DC/DC converter is typically used in cost sensitive general purpose power isolation and voltage matching applications. Despite its low cost, it is a fully specified converter with 1kVDC isolation, industrial operating temperature range of -40°C to +85°C without derating and UL/EN certifications.

Unique Selling Proposition: Low cost 1W DC/DC converter
SIP7 package
Efficiency up to 80%
UL/EN certifications

Target customer: Industrial
General purpose
Price-sensitive applications

Main Features: 1W single output
Efficiency 80%
1kVDC high isolation
UL/EN certifications
