

RKZE

The RKZE series are low cost 2W DC/DC converters in a standard SIP7 footprint. This makes them suitable for price sensitive industrial, test and measurement and high volume applications. The RKZE converters are pin-compatible with the RK and RH converter series, offering a simple way to upgrade a 1W high isolation supply to 2W. Standard isolation is 3kVDC with a /H version factory tested to 4kVDC. The RKZE is available with single or dual outputs with optional continuous short circuit protection (/P suffix).

Unique Selling Proposition:	<ul style="list-style-type: none"> Low Cost 2W converter 3kVDC or 4kVDC isolation Single or dual outputs Short circuit protected (/P version) 3 years warranty
Target customer:	<ul style="list-style-type: none"> Communication systems Distributed power systems Process / Industrial control equipment Robotics
Main Features:	<ul style="list-style-type: none"> Unregulated 2W DC/DC converter Single or dual outputs 3kVDC or 4kVDC isolation Industry standard SIP7 package Short circuit protected (/P versions)
